INSTRUCTIONS

1. Thin down some Carnation paint by mixing in a little water. We added about 50% water to 50% paint. Sweep the fan brush in x-shaped motions all over the top of the plate. Allow the plate to dry for a few minutes.
2. Cut out the pattern from the sheet of NCR paper so that it's easier to center on the plate. Press firmly with a red ballpoint pen as you trace over all of the lines on the pattern. Before removing the pattern, lift a corner to ensure you've traced all the lines.
3. Use a medium brush to apply three generous coats of Snowflake to the skull.
4. Next, use a liner brush to apply three coats of Beachcomber to the small fanned flowers.
5. Fill in the large flowers with three generous coats of Pumpkin Pie.
6. Thin down some Stardust paint by mixing in a little water. We added about 50% water to 50% paint. Use a liner brush to apply one generous coat of the watered-down paint to the leaves.
7. Use a liner brush and the watered-down Stardust to apply lines from the center of the orange flowers.
8. Use a detail brush to apply two coats of Licorice to the eyes, nose, little flowers, and centers of the orange flowers.
9. Thin down some Licorice paint by mixing in a little water. We added about 50% water to 50% paint. Use a liner brush to apply the stems.
10. Finally, paint the edge and back of the plate with three generous coats of Pumpkin Pie.

TIPS

- Using a red pen to trace the pattern will help you see where you've traced.
- Three coats of paint will give a solid color.
- Regarding the colors we are adding water to, we aren't concerned about solid colors.
